SteriMicro™ – Hand Rub

Rub containing Ethyl Alcohol with CHG

Hand hygiene is an important part of the international emergence of COVID-19. Practicing hand hygiene, which includes the use of alcohol-based hand rub (ABHR) or handwashing, is a simple yet effective way to prevent the spread of pathogens and infections in healthcare settings. CDC recommendations reflect this important role.

COMPOSITION :

Chlorhexidine Gluconate
Solution I.P. 2.5% v/v
Equivalent to Chlorhexidine
